

BCE Cellular Extrusions

bce authorised
installer scheme

Quality
Assured

BCE Authorised Installer peace of mind

For complete peace of mind, the BCE Authorised Installer Scheme is designed to reassure householders that they can buy with confidence, and to present a clear division between skilled installers and those who have a damaging affect on the industry.

insurance backed
guarantee for
added protection

With the BCE Authorised Installer Scheme, the householder can be assured of a professional installation that enhances the beauty of any home. Training on the correct installation techniques and the backing of a leading manufacturer means a BCE Independent Authorised Installer does an expert job.

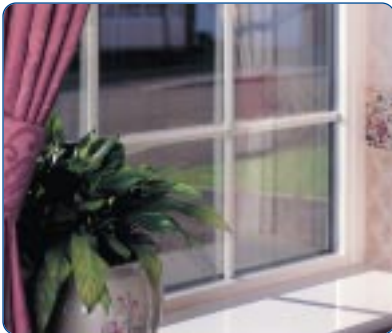

A 10-year insurance backed guarantee is mandatory in all installations completed by a BCE Independent Authorised Installer. The insurance covers the installation should the Independent Authorised Installer cease to trade and is therefore unable to honour the installation guarantee.

quality assured

BCE Cellular Extrusions is one of the UK's leading designers and manufacturers of high quality building plastics. Founded on both quality of service and product, the company has positioned itself as a significant force in the manufacture of PVC cellular extrusions.

PVC-UE products from BCE are a versatile and high performance alternative to timber. They are easy to use, value for money, and will stay looking good and will perform well for longer. Manufactured to BS7619: 1993 and featuring the prestigious kitemark, BCE products provide quality performance to reassure installers and homeowners alike.

why choose the BCE Authorised Installer Scheme

- All installers are assessed to ensure complete stability and reliability
